

Remarks

Reconsideration of this application is respectfully requested.

Claims 1, 2 and 4 are rejected under 35 USC 102(b) as being anticipated by Krasner et al. Applicants have amended claim 1 to call for the surfaces of the first and second bristle supports from which the respective first and second bristles extend to be capable of lying in substantially a same plane during operation of the electric toothbrush. Support for this amendment is found in figures 13 and 14, and the written description thereof. In figures 1 and 2 of Krasner, cited by the Examiner, neither of bristle supports from which bristles 7 and 11 extend have surfaces which are capable of lying in substantially a same plane during operation of the electric toothbrush. As such, Krasner does not anticipate amended claim 1 or claims 2 and 4 which depend from claim 1.

The Commissioner is hereby authorized to make any additional copies of this sheet needed to accomplish the purposes provided for herein and to charge any fee for such copies to Deposit Account No. 07-1350. A duplicate copy of this sheet is attached.

Applicants believe the present claims are now in condition for allowance and such action is earnestly requested.
